

Dear all,

at the link below, you'll find a spreadsheet form with a list of books (graded readers – retold stories). They are all in Ďáblice (Ládví) branch of the Municipal Library of Prague, you just need to check the availability. I'd like you to choose one book and write your name right next to it into the first column. Everybody will read a different book. If you go for the intermediate level, it's fine, however, I'm quite sure that many of you will actually manage the upper-intermediate.

I want you to borrow the book, read it, choose (and photocopy) an interesting/characteristic excerpt and be ready to present it sometime during the next term.

At the following link you can download a short grammar review. Particularly the first five and last two pages should be of high interest for you. If you need some clarification in Czech language, I recommend <http://www.helpforenglish.cz/gramatika/> - a brilliant source.
